WM, DODD & CO.

IN presenting you with DR. EATON'S INFAN-ITILE CORDIAL, we desire to state its superior-ity over every nostrum that nurse or quack has here-tofore ofered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in in-fantile complaints to prescribe for them. Secondly—It is entirely free from paragoric or opiate of any kind. and consequently relieves by removing the suffering of your child, instead of deadening itssensi-bilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile Head it is a sure reiter. For CROUP, the most tatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions for fits, we earnestly recommend you to lose no time in procuring it. Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which Dr. Bronson was restored to perfect health. Within six months after its introduction, over two thousand consumptives were effectually cured by it. If you have any complaints of consumptive tendency—Cough, Cold, Headacke, Palpitation of the Heart, Loss of appetite or pain in the side, lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from Nercons Debblity, or your sleep is broken and disturbed, if your Spirits are Depressed or your Organs reluxed, you will find in this ar unfailing remedy, by commencing with ten drops. If your Liver is torpid or diseased in any manner whatever, one or two bottles will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of Dyspepsia the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking only one bottle. In Male or Female Complaints and Weaknesses, the sufferer, after trying other remedies in vain, may rost assured, that a certain cure will result from the use of two or three bottles. The "BLOOD FOOD" is effectual in all cases of Eruptions. Salt Rheum Scrofulas and other like complaints. Pale and emaciated children and adults are immediately benefited by its use. It gives strength to the body and color and beauty to the kine. Physicians of all schools are using it with wonderful success.

THE COURSE OF INSTRUCTION embraces the T various branches of the Common Law; and of Equity, Admiralty, Commercial, International, and Constitutional Law; and the Jurisprudence of the United States. The Law Library consists of about 15,000 volumes, and as new works appear they are added, and every effort is made to render it complete. Instruction is given by oral lectures and expositions, (and by recitations and examinations in conscient with them,) of which there are ten every week. A Moot Court is holden in each week, at which a cause previously given out is argued by four students, and an opinion delivered by the Presiding Instructor. Rooms and other facilities are provided for Club Courts: and an Assembly is held weekly, for practice in debate, and for acquiring a knowledge of parliamentary law and proceedings.

Students may enter the School in any stage of their professional studies or mercantile pursuits, and at the commencement of either term, or in the middle or other part of the term.

They are at liberty to elect what studies they will pursue, according to their view of their own wants and attainments.

The academical year, which commences on Thursday, six weeks atter the third Wednesday in July, is divided into two terms of twenty weeks each, with a vacation of six weeks at the end of each term.

During the winter vacation the Library is opened, warmed, and lighted, for the use of the members of the Sehool.

The Exercises of the Spring Term will commence on MONDAY, September 3d, 1860.

Applications for admission, or for catalogues, or any further information, may be made to either of the Professors at Cambridge.

* * Our Engine works up to any speed we desire: in fact we often have more power than we can use, and have to lea's et he fire-door open when sawing dry timber. In sawing green poplar we use about half the slabs, but consume the other half in running our Grist Mill two days in the week. We make 30 bushels cornmeal per hour with a pair of Burriss' 36 inch burrs. You may think that fast, but it is true; and we run a flouring mill at the same time, both coupled directly to the engine. * My mill is quite popular, not only as a saw, but grist mill, and I must give the Blandy Portable Steam Engine at least half the credit, for it works at all times LIKE & THING OF LIFE. We have had but very little trouble in keeping everything in order without the aid of a machinist or engineer. I had a man with me three days who had been used to a stationary engine. Since then a boy attends the engine, and does gine. Since then a boy attends the engine, and does it well. As to my saw, we can cut just what we please—have cut at the rate of 1350 feet per hour. The saw never heats in any kind of timber. Lumber is in good demand, so that up to this time I cannot get a supply for myself.

In 11 hours 5 minutes, my brother and myself, with John Kinney, sawyer, cut 14,073 feet—and the time we were at dinner and filing saw is included in the time specified above.

It is a settled point, and given up by all who have seen Blue Dick, that it is far ahead of any thing ever introduced into this part of the State. Blue Dick got the first premium at the Fair of the North Kentucky Agricultural and Mechanical Association, last month, and was immensely popular with every body.

Since our farmers have seen Blue Dick hitched to a Thrashing Machine, they all want him next year, but he can't thrash them all in a week or two, so it's no use talking, I have got to have a mate for him.

* * Our Mill is still doing fine, making very nice smooth lumber, and cutting all the logs we can get to and from it. It has deceived the old-fashioned mill men the worst of anything I ever saw. They can't see how it is that it has so much power and it so little. But they have to acknowledge that it out-cuts any mill they ever saw, bjg or little.
